Passed the Senate

Debate on the Tariff Is Closed at Last.

BILL HAS A DECISIVE MAJORITY.

President McKinley Submits His Special Message on Monetary Affairs to the Cabinet — Relief From Civil Service Laws—Senator Harris' Condition Precarious—Indiana Postmasters.

WASHINGTON, July 8.—By the decisive vote of 38 to 28 the tariff bill was passed in the senate shortly before 5 o'clock yesterday. The culmination of the long and arduous struggle had excited the keenest interest and the floor and galleries of the senate chamber were crowded by those anxious to witness the closing scene. Speaker Reed, Chairman Dingley and many of the members of the house of representatives were in the rear area, while every seat in the galleries save those reserved for foreign representatives, was occupied.

The main interest centered in the final vote and aside from this there was little of a dramatic character in the debate. The early part of the day was spent on amendments of comparatively minor importance, the debate branching into financial and anti-trust channels.

An analysis of the final vote shows that the affirmative was cast by 35 Republicans, 2 Silver Republicans (Jones of Nevada and Mantle) and 1 Democrat (McHenry); total, 38. The negative vote was cast by 25 Democrats, 2 Populists (Harris of Kansas and Turner) and 1 Silver Republican (Cannon); total, 28. Eight Republicans were paired for the bill and eight Democrats against it. The senators present and not voting were: Populists—Allen, Butler, Heitfeld, Kyle and Stewart; Silver Republicans—Teller and Pettigrew.

The tariff debate began on May 25, on which day Mr. Aldrich, in behalf of the finance committee, made the opening statement on the bill. The actual consideration of the bill began the next day, May 26, when schedule A, relating to chemicals was taken up. The debate has been continuous since then, covering six weeks and one day. It has been notable in some respects, although it has lacked many of the dramatic and oratorical features marking past debates.

The bill as it goes back to the house re-enacts the anti-trust sections of the Wilson act, while the reciprocity and retaliatory provisions are substituted for those of the house. One of the most important new provisions added by the senate is that placing stamp tax on bonds, debentures and certificates of stock. Aside from these more important changes the bill as it goes back to the house has 874 amendments of various degrees of importance, which must be reconciled between the two branches of congress in conference.

READ TO THE CABINET.

President McKinley Submits His Monetary Message to His Advisers.

WASHINGTON, July 8.—President McKinley has framed his special message to congress on monetary reform, and submitted it to his cabinet late yesterday. He refers to the passage of the tariff bill by the house and the senate and hopes that it will soon be concurred in by both houses. With that acted upon, a subject of equal importance, he says, demands immediate attention, that of reform in our currency. The message quotes from the president's inaugural address, and cites the work and recommendations of the Indianapolis monetary conference. The message asks congress to authorize the commission, so that the president may be able to report to congress when it reassembles in the next regular session.

Senator Harris' Condition Precarious.

WASHINGTON, July 8.—The condition of Senator Harris of Tennessee is precarious. During the heat of yesterday there were fears that in his debilitated condition he would not rally again, but as the atmosphere became cooler last night the senator regained partially what he had lost during the day. Owing to Mr. Harris' extreme weakness his proposed removal to a nearby mountain resort has been dismissed as out of the question.

Authorized to Enforce Claims.

WASHINGTON, July 8.—The senate committee on foreign relations through Senator Lodge, reported a resolution authorizing the president to "take such measures as he may deem necessary to obtain indemnity from the Spanish government for the wrongs and injuries suffered by August Bolenton and Gustave Richelleu, two naturalized American citizens by reason of their wrongful arrest by Spanish authorities at Santiago de Cuba in 1895.

Favorable Report Ordered.

WASHINGTON, July 8.—The senate committee on foreign relations yesterday authorized favorable reports upon the nominations of W. W. Rockhill of the District of Columbia, to be minister to Greece; A. S. Hardy of New Hampshire, to be minister to Persia; F. B. Loomis of Ohio, to be minister to Venezuela; and Charles V. Hendrika of the District of Columbia, to be secretary of the American legation at Vienna.

Relief From Civil Service Law.

WASHINGTON, July 8.—So soon as congress adjourns the president, it is said, will relieve from the provisions of the civil service law several thousand government employees. The order will operate in the government printing office, the bureau of engraving and printing and custom and internal revenue office.

Indiana Postmasters.

WASHINGTON, July 8.—Indiana postmasters were appointed yesterday as follows: Canaan, D. C. Lockard; Dillabourgh, W. W. Witherspoon; Farmers' Retreat, C. A. Opp; Pittsboro, Lloyd Barker; Wiles, R. J. Hacker.

SULTAN ANGRY.

Peace Must Be Concluded Within a Week or War.

LONDON, July 8.—Graco-Turkish affairs appear to be re-entering an interesting stage. Yesterday the porte dispatched a circular to its representatives abroad containing a skillful defense of the Turkish case and declining to consider any frontier line in Thessaly north of the river Peneos, which it regards as the natural boundary.

It appears that the sultan has convinced himself that the powers will not resort to coercion and has decided to test the alleged concert of Europe to the utmost. On Monday he summoned a council of ministers for an extraordinary session to the Yildiz Kiosk with the result that, after a heated discussion, a report was drawn up in favor of resuming hostilities, if peace should not be concluded within a week.

The minister of war sent telegrams to Edhem Pasha announcing the decision. This accords with all the news received for the last 10 days. The Turks are rapidly strengthening their positions in Thessaly, massing troops at Dimokio, fortifying Velestino and in other ways intruding themselves more firmly. The Thessalian harvest has already been reaped by the Turkish soldiers and large quantities of grain have been stored at Elassona.

According to a circumstantial report of a conversation between the sultan and an officer of his household, Abdul Hamid complained that the war had been forced upon him and that, when he was victorious, Europe refused him either territory or indemnity. Therefore he intended to resist to the utmost.

CLOSING ON GOMEZ.

General In Great Danger of Being Surrounded by Spaniards.

HAVANA, July 8.—A telegram from Sancti Spiritus states that General Gomez is in danger of being surrounded by several strong Spanish columns operating in the vicinity of the San Jose estate, about 20 leagues from Sancti Spiritus.

Six Cuban bands under Rego, Camacho, Carrillo, Clavero, Perez and Banderas are reported to have learned of the commander-in-chief's peril, and have hurried to his assistance.

It is also reported that a Spanish battalion intercepted the band under Clavero at Porto Rillo and defeated it in a sharp engagement, during which the Cuban leader was slain.

News is momentarily expected of a decisive battle between Gomez and the Spanish forces now closing in on him. General Weyler when last heard from was at Sancti Spiritus.

SOCIALIST HYNDMAN.

Sensational Letter From His Pen In The London Justice.

LONDON, July 8.—Hyndman, the English socialist leader, has an article in the current issue of Justice, the socialist organ, on the subject of the Indian riots. It is full of accusations, is insulting to the queen and concludes as follows:

"Now let us say plainly, as Englishmen who are utterly sick of the infamous wrong and robbery being done on our name, who would gladly see the villains tried and hanged, from Lord George Hamilton (secretary of state for India) upwards, who have created the famine and murdered natives by the millions, that if ever rebellion was justified in the history of the world it is justified in British India today. No more intolerable tyranny ever crushed and ruined a suffering people."

Japan Protests to Dole's Government.

SAN FRANCISCO, July 8.—The steamship Australia arrived from Honolulu yesterday with advices up to June 30. They are to the effect that the resident Japanese minister Shimamura has received instructions from his government to make a formal protest against the annexation of the Hawaiian islands to the United States until the complications existing between Japan and Hawaii have been amicably settled.

Charities and Corrections.

TORONTO, July 8.—The first session of the 24th annual meeting of the conference of Charities and Corrections was held in the Horticultural hall pavilion last night. Three hundred and fifty delegates from the United States were in attendance, and it was announced that 300 more are expected today. The president, Alex Johnson of Fort Wayne read his annual address.

Related to General Beauregard.

NEW ALBANY, Ind., July 8.—Mrs. Rachel McLaughlin, a widow, one of the oldest residents of this city, was found dead in bed at her home, where she lived alone. She was 83 years old, and it is of common belief that she was a sister of the late General Beauregard, of Confederate fame.

Consul Baker's Condition Hopeless.

SPRINGFIELD, Ill., July 8.—A telegram received here yesterday states that the condition of Hon. Edward L. Baker, United States consul to Buenos Ayres, is hopeless. Mr. Baker was injured in a railroad collision near Buenos Ayres about two weeks ago.

GREAT MINER STRIKE

Indications So Far Are Said to Favor the Strikers.

DILLONVILLE MEN ARE OUT.

Trouble May Be Speedily Settled In Indiana—More Men Quit Work In Pennsylvania—Railroads Consigning Coal No Matter to Whom Consigned—Grape Creek (Ill.) Men at Work.

TERRE HAUTE, Ind., July 8.—Prospects appear favorable for a speedy and satisfactory settlement of the miners' strike in this district. President Knight and Secretary Kennedy have been meeting with the Labor commissioners, as well as several operators who refused to meet with the miners last spring. It is said if satisfactory arrangements can be made with miners in other states those of Indiana will do their part.

President Knight has information that the Hazel Creek miners at Clinton went out yesterday. About 600 men are now idle at Clinton. The Grape Creek (Ill.) miners are still at work, as are the men at Shelbyville, Ind. There seems to be no disposition to use violence to get men to quit work, but the union officers have trusted agents working among the unorganized men, and expect to have nearly all out within a week.

PITTSBURGH DISTRICT.

Both Sides Claim to Be Satisfied With Results So Far.

PITTSBURGH, July 8.—Forty-eight hours after the inauguration of the great coal miners' strike a comparison of statements from both sides engaged in the contest show favorable results for the diggers. Discounting the miners' official announcements by the operators' opinions, there seems no question that the workmen have scored a decided advantage in this district, and it is believed that as the Pittsburgh district goes, so goes the country.

Conservative estimates place the number of miners now striking in this district from 16,000 to 18,000 men, an increase of about 5,000. This leaves but from 3,000 to 5,000 men still working.

Patrick Dolan, president of the Pittsburgh district miners, is confident that before the present week closes he will have succeeded in getting all of the men to join the ranks of the strikers, and when this result is effected, the battle will be practically won.

The operators are as confident of success as the miners, and yesterday issued a statement claiming a large accession of men in different parts of the district and a heavier shipping than usual. The operators admit that the miners have succeeded in getting more men out than they expected.

FORCED TO QUIT.

Miners With Pickhandles and Clubs Intimidate the Dillonville Men.

WHEELING, July 8.—Yesterday, armed with pickhandles and clubs, the striking Wheeling and Lake Erie miners at Long Run, over the river, proceeded to Dillonville, a short distance away on the same road, and forced the working miners at the latter place to come out on strike. The deputy United States marshals from Cincinnati had not yet arrived.

At Wheeling Creek, opposite here, in Ohio, the miners' union met yesterday and decided to go on strike in obedience to the request of the United Mine Workers' association.

Back of Bellaire, O., on the Baltimore and Ohio, two railway mines are working at the rate demanded by the miners—60 cents.

Situation at Massillon.

MASSILLON, O., July 8.—The independent miners in this district having endorsed the proposition to strike, the operators have about abandoned the idea of continuing to work the mines until the strike is settled. So far as this operation here is concerned.

United States Marshals Protecting Miners.

COLUMBUS, O., July 8.—United States Marshal Deviney left Columbus last night for Wheeling with 25 deputies to be used in protecting the miners at the mines on the Wheeling and Lake Erie railroad. These mines are located at Dillonville, Laurelton and Long Run in Ohio and number between 1,500 and 1,600. They decided to return to work today if protection is furnished.

Will Confiscate Coal.

BUFFALO, July 8.—Buffalo has already received an intimation of the effect which the great miners' strike in the Pittsburgh coal region will have upon this city. The Lake Shore Railroad company has notified the local gas companies and shippers that it will confiscate all the coal coming over its lines in case it becomes necessary.

Railroads Seizing Coal.

CLEVELAND, O., July 8.—The railroads have already begun to seize coal for their own use, no matter to whom it is consigned. Whole trains are sent to railroad yards and unloaded, regardless of who the coal is destined for.

Railroad Property Burned.

CHICAGO, July 8.—Fire broke out this morning in the large transfer sheds of the Chicago and Alton Railroad company. The flames spread so rapidly that within 10 minutes after an alarm was given the entire structure was ablaze. The fire was extinguished after a short fight. Thirty freight cars loaded with valuable merchandise were destroyed. The loss is heavy.

OF INTEREST TO MERCHANTS.

One and a Third Rate Allowed Them by Western Passenger Association.

CHICAGO, July 8.—The roads of the Western Passenger association have decided to grant rates of one and one-third fare for merchants who desire to visit other cities for the purpose of purchasing goods. The rates will be made on the certificate plan and there must be at least 100 applications for the rate before it will be allowed to any town.

The Chicago merchants desired that the roads make the rates for them alone, but this the roads absolutely refused to do. Any place in the territory of the Western Passenger association, no matter of what size it may be, can have rates of one and one-third if its merchants will show that 100 tickets will be taken at the rate made by the roads.

MILLERS COMBINED.

Grand Jury Instructed to Investigate and Indict.

NASHVILLE, July 8.—Judge Anderson of the criminal court yesterday specially charged the grand jury to investigate the alleged formation of a millers' and wheat buyers' trust and to indict if the facts disclosed warranted, declaring that trusts and combines were infamous and against the law of the state. The millers deny that they have formed a trust or combine, but admit they have a purchasing agent who acts for all of them, but buys through grain merchants, who deal directly with the growers.

Robbed by a Tramp.

MINOCCA, Ill., July 8.—A tramp entered the farmhouse of J. Clemmon and, at the muzzle of a pistol, demanded money. Miss Anna Cruse, who was in the house alone, was compelled to sit quietly by and see the man ransack the house. She finally managed to escape and gave an alarm. A body of men quickly gathered and searched the neighborhood, but the intruder made his escape.

Knocked Off a Moving Train.

MENDOTA, Ill., July 8.—Two men while attempting to board a freight train here were knocked off at the coal chutes. One, who carried papers bearing the name of August Peterson, which showed that he had recently been discharged from the federal service at Fort Sheridan, was killed, and Fred Strayhorn, who seems to have come from Talon, Ill., was terribly cut up and will probably die.

Accident to an Artist.

HON FLEUR, France, July 8.—Joseph Edouard Dantan, the well known painter, was killed yesterday by being thrown out of his carriage, owing to the bolting of his horse. The legs of Madame Dantan, his wife, who was with him, were both broken.

MINNESOTA STORMS.

Damages Will Amount to Over \$1,000,000—Dets. Is Hard to Get.

DULUTH, July 8.—Fourteen people are now known to have been killed in the cyclone and cloudbursts in this section of Minnesota. The storm was general and it is impossible to estimate the amount of damage with any degree of certainty.

The cyclone, which was central near Glenwood, was the worst that ever struck the state. The telegraph lines are down for 75 miles each side of there and particulars are hard to get.

Railroad traffic is paralyzed because of the heavy fall of rain. The rain came so suddenly and so fiercely in some places that many trains ran into washouts before they had any intimation of danger.

Crops have been damaged to a great extent, and a large amount of live stock was killed. Reports of washouts, floods and cyclones are being received almost hourly. Every railroad in the state has had some damage to tracks and rolling stock.

The storm was so general it is hard to even approximate the loss, but considering crops and other damage it will probably exceed \$1,000,000.

MONONGAHELA RIVER.

The Stream Now Open to the Commerce of the Nation.

PITTSBURGH, July 8.—The formal transfer of the property of the Monongahela Navigation company to the United States government has been made and the Monongahela river is now free to the commerce of the nation.

The transfer was made to Assistant Secretary of War Meiklejohn, who delivered the warrant drawn on the United States treasurer for the amount of the award (\$3,601,615.56) to President Donnell of the Navigation company. The freeing of the river means a saving of \$235,000 annually to the coal operators. The transfer releases nearly 10,000,000 bushels of coal which has been held in the pools by the operators to save lockage tolls. This coal will be brought down to Pittsburgh today.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

REV. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1897: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so worried me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

For Congressman Fourth District,
MAJOR CHAS. W. LEE,
Of Switzerland County.

With due regard to the county attorney's opinion on the county seat election, we must confess that we would rather accept the judgment of the attorney general of the state, who has won golden opinions from the legal profession all over the country for his logical handling of legal questions both in state and federal courts, and he says the call for Aug. 3 is not legal.

The bugaboo of the Jeffersonville court house bonds still haunts some taxpayers over the county. But the supreme court some two or three weeks ago held that Jeffersonville and not Clark county should pay the bonds in accordance with the act of the legislature. The Brownstown Banner has not been publishing this decision of the court.

The commercial agencies which look at the business situation wholly from a non-political standpoint all agree in reporting a steady improvement in business conditions. These agencies continually feel the business pulse and are quick to note its fluctuations. Instead of the usual falling off for the summer months there has been a steady gain which betokens a large increase when trade opens up for the fall season.

A month is not a year, and four months are not four years. The McKinley administration was elected for four years' term, and yet there are people who are dissatisfied because it has not done in four months what was set down as its task for four years. No administration ever made such speed in carrying out its pledges in the opening months of its term, and it is not justice to keep nagging it because it has not fully completed all its duties in the few weeks in which it has been at work.

The day has probably gone by for the average man when fortunes will be made as quickly as they were in the years following the close of the war when everything was high in price. Business men must be content with a smaller margin of profit and make up the difference by doing less credit business and so have fewer losses from bad accounts. Great care must be exercised in preventing leakage through the expense account. There will be less tendency toward speculative business deals and more attention given to business details. This will have a wholesome and steady effect on our national business life.

The Brownstown Banner is doing its utmost to make the people believe that the "fake" election called for August 3 is legal and that its results would be a valid decision of the question. Yet it is impossible to get around the facts that the board of commissioners attempted to revive a petition which it dismissed two years ago—a thing which even a board of commissioners is not allowed to do. Since it had dismissed the petition and the matter had been carried to the courts, it had no power to revive the petition until the court's mandamus had been served. This mandamus clearly states that the board of commissioners shall at their next regular meeting (which will be the September term) issue the call for the county seat election. It is clear then that the call for August 3 is void and the result of the election would be invalid whatever it might be. Yet in the face of these facts the board persists in advertising its call for the election on August 3. Seymour is willing to vote on the question just as soon as the election can be called in a legal way.

ONE KIND OF BAD MEN

THOSE WHO ARE DANGEROUS TO ROWDIES AND ROBBERS.

A Wyoming Cattleman Who Checked the Little Gam: of Two Chicago Thieves. How a Millinery Salesman Cowed a Tough That Wanted to Shoot at Everything.

"What is known as a bad man in the far west is not necessarily a man of an unvaryingly evil disposition or of disposition evil at all. He may be uniformly and cussedly bad or bad only in the sense of being dangerous to those who offer him unjustifiable provocation. I have met many varieties of the species in my 20 years of travel west of the Mississippi," said a former commercial traveler.

"I was in the train in which it happened, although I did not see the occurrence, when two thieves came to grief in trying to rob a cattleman. It was in the Chicago, Burlington and Quincy station in Chicago, or, rather, just beyond the station. The thieves evidently had planned the robbery beforehand, knowing that the cattleman had a large sum of money with him, and they had followed him to the train and aboard a coach. He had seated himself near the middle of the car. After the train had started and got under good headway one of the thieves suddenly grabbed him from behind, pinning his arms to his side, while the other drew his pocketbook from his inner breast pocket. Then the thieves ran in opposite ways toward the car doors with the intention, of course, of jumping from the moving train, but they hadn't reckoned rightly on the quickness of the cattleman's pistol. Drawing his revolver, he brought down one of the thieves half way to the door, mortally wounded, with a bullet through his back. Turning, he fired at the other, just dashing out at the door, shooting him through the heart so that he fell dead on the platform.

"The whole thing was done so quickly that few of the passengers in the coach were aware that anything unusual was going on until the pistol shots rang out. Then naturally there were jumping out and confusion and hysterics. The cattleman, pistol in hand, went at once to the first thief he had shot, searched him and, not finding his pocketbook, went back through the car to where the other thief lay dead on the platform. The crowd gave him free passage along the aisle, you can bet. At the door a brakeman handed him the pocketbook, which the thief had dropped when he fell. The cattleman ran his eye over the contents, satisfied himself that they were all right, then went back to his seat, where he remained quietly until the next station was reached. Here he got out, asked the telegraph operator to notify the police that he was waiting for them to arrest him and staid until they came. The coroner's jury exonerated him for the killing, and his case, if ever it came before a court, was quickly dismissed. I met him afterward in Wyoming, a quiet, everyday sort of man of no particular reputation as a shot, who had got along with little trouble in a fighting way before and after his exploit at Chicago, but he showed himself great at this one time when nerve and promptness and good marksmanship were needed.

"I saw a rough fellow taken down by a man who was not a bit rough to look at once on a passenger train of the Southern Pacific road, west of Denning. It was in a parlor car, and the tough had arrived at the stage of drunkenness where he felt it necessary to get out his pistol and shoot at telegraph poles along the side of the track. He got ugly when the conductor spoke to him and allowed he'd do pretty much as he pleased and that the man who interfered with him wouldn't turn up for his victims next day or at any time after. It is probable that the trainhands eventually would have brought him to rights, but a passenger, a slim, quiet, refined looking man, took the business in hand and saved them the trouble.

"The fun began when the tough's pistol went off in the car, by accident quite likely. At this the slim man got up and walked back to him, carrying a slender walking stick in his hand. "There has been enough of this business," he said. "Put that pistol up." "The tough jumped up from his seat. "Damn you!" he shouted. "Do you know you're talking to? You git!" "He started to cock his pistol as he spoke, but the hammer didn't get half way up. The thing was done too suddenly for my eye to follow, but the pistol clanged down on the floor between them, knocked from the fellow's hand by a blow with the stick. The tough swore and clutched with the other hand at his hand that had been so smartly rapped. The slim man stooped, picked up the pistol and threw it out of the window.

"Now, will you behave yourself?" he asked, looking the fellow in the eye, with the expression of a wild beast tamer and holding the stick as a fencing master holds his foil at "ready." "You bet," was the prompt answer, and the tough man sat meekly down. He was very much on his good behavior all the rest of the trip. He even tried to make friends with the slim man. The slim man's name, by the way, was E. T. Hallam, an agent for a millinery goods firm. He received the lionizing of the other passengers modestly, acknowledging, however, that he fenced and spared some and could play a little at single stick."—New York Sun.

The Letter A. The letter A is in Hebrew called aleph, an ox, and the Phoenician character which represents this sound was originally a picture of an ox head; hence the name. The right hand stroke of the A represented the top of the head, the other down stroke the left side and a line, since fallen out of use, represented the right side of the head, while in very old Phoenician manuscripts two dots above for eyes and two below for nostrils rendered the resemblance complete.

PAY FOR OVERTIME.

Suits Brought Against the Government In Which \$150,000 Is Involved.

JEFFERSONVILLE, Ind., July 8.—In the United States district court of the Seventh district will be heard on July 15, a number of cases which mean about \$150,000 to the government. The cases are those of Henry Timmonds, Matthias Saur, William Strauch and John Cornburn against the United States for overtime, claiming to be due them for work done at the government station in this city. Each case amounts to \$5,000. Should these be won other suits will be filed by other employees and ex-employees amounting in round numbers to \$150,000.

Trustee Paskins Explains.

SPEARSVILLE, Ind., July 8.—Trustee Paskins denies the truth of the dispatch sent out from here regarding the whipping of Abram Jones for refusing aid, so far as he is concerned. He says Jones' family was in need and he was notified to look after them. He gave Jones an order for supplies which he accepted and started after them. After going a short distance he returned and said it was too hot. Paskins says he then told Jones he would take the children to the orphan's home and the wife to the poor farm. He says Jones has been offered work and refused it. Mrs. Jones says her husband whipped her and the children daily.

Boys' Brigade in Camp.

CROWN POINT, Ind., July 8.—Over 600 boys, members of the United Boys' Brigade of America, have gone into camp at Cedar Lake, which they have named in honor of Governor Mount. O. L. Richard of Chicago is in command. The total attendance is expected to reach 1,000. Field day is set for Saturday, at which time a visit from Governor Mount and staff is promised.

Charged With Embezzlement.

PORT WAYNE, July 8.—John F. Currie, a prominent speculator and real estate man, was arrested last night and released under bonds on the charge of embezzlement. The sum involved is \$1,000. It was a loan and the affidavit is sworn to by Louis Peltier. Mr. Currie claims that he can prove himself innocent of all criminal doings.

Probably Fatally Injured in a Runaway.

GOSHEN, Ind., July 8.—John Bradshaw drove to this city from Nappanee, and while here his horse became frightened, dashed away and struck a little girl, throwing the animal down. The child is probably fatally injured. J. C. Beyer, who assisted in trying to control the frightened horse, was thrown down and trampled.

Reformatory Clerks.

BLOOMFIELD, Ind., July 8.—Superintendent A. T. Hert of the Indiana Reformatory was here and gave out that John A. Pate, clerk of the reformatory, resigned last Monday. Mr. Hert announced the appointment of Joseph E. Shryver of Bloomfield to fill the vacancy. Mr. Pate is also a Bloomfield man.

Woke Up the Wrong Man.

RICHMOND, Ind., July 8.—Richard Harris persisted in annoying Edward Boyer until the latter struck him with his fist, knocking him down. Harris struck the pavement with such force as to burst an artery in his head. He freely bled at the ears and mouth, and the injury may result fatally.

Failed to Capture Wolf or Panther.

ENGLISH, Ind., July 8.—The hunter near Pilot Knob failed to round up any wolf or panther, as was expected, but it resulted in the capture of seven foxes and a number of opossums. It is thought that the animal which has caused so much alarm is hidden in some of the cliffs in the vicinity of the knob.

Well Known Physician Dead.

GREENCASTLE, Ind., July 8.—Dr. J. M. Knight, one of the oldest and best known physicians in this city, is dead at his home. He was a member of the One Hundred and Twenty-fourth Indiana and the G. A. R., which will bury him with military honors today at 4 o'clock.

Dislocated His Jaw.

WARASH, Ind., July 8.—A singular accident befell Philip Pitz, an ice dealer and saloonkeeper of this city. While yawning he dislocated his jaw, which dropped down upon his neck. He could not talk and suffered intense pain until a surgeon repaired damages.

Citizens' Meeting.

A meeting of citizens was held at Ar-
mory hall last night under the aus-
pices of the commercial club. The
court house situation was discussed.
The general opinion was that since the
call for a special election on Aug 3 is
clearly illegal and without authority
from the court, Seymour citizens and
removalists generally should refrain
from voting on that day.

Tuesday night at 8 o'clock was ap-
pointed as a regular citizens' meeting
night during the court house campaign.

Seymour Manufactures in New Mexico.
Ex-Congressman George W. Cooper,
of Columbus, is spending some time in
the west to regain his health. He finds
that Indiana towns, Seymour among
them, are supplying many of the ne-
cessities of life to the people of the west-
ern states. In a letter to the Colum-
bus Herald he says:

"They draw their supplies from the
east and from California. I saw cere-
line with Columbus labels on the boxes
in El Paso. I do not know whether it
was old goods or old labels. I saw Shel-
byville furniture at Albuquerque, and I
saw, most wonderful of all, pants made
in Seymour, Ind., on sale at several
places. It is an old saying 'go away
from home to hear the news.' I be-
lieve it is not generally known in Colum-
bus that Seymour had achieved this
distinction. Here she is modestly
reaching out more than a thousand
miles with her wares, and supplying
her brethren of the plains with an ar-
ticle which might be ranked as a prime
necessity of life."

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is catarrh. Hall's Catarrh Cure is
the only positive cure now known to
the medical fraternity. Catarrh being
a constitutional disease, requires a con-
stitutional treatment. Hall's Catarrh
Cure is taken internally, acting directly
upon the blood and mucous surfaces of
the system, thereby destroying the
foundation of the disease, and giving
the patient strength by building up the
constitution and assisting nature in do-
ing its work. The proprietors have so
much faith in its curative powers, that
they offer one hundred dollars for any
case that it fails to cure. Send for list

There is Nothing so Good.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, so demand it and do not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else to be just as good. You want Dr. King's New Discovery because you know it to be safe and reliable, and guaranteed to do good or money refunded. For coughs, colds, consumption and for all affections of throat, chest and lungs, there is nothing so good as Dr. King's New Discovery. Trial bottle free at W. F. Peter's drug store. Regular size 50 cents and \$1.00.

Marriage Licenses.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

BUSINESS NOTES.

Philip Lester was in the city today from Little York on business.

D. R. England and wife, of near Salem, were here this morning on business.

Leudtke & Fillion began today setting the stone curbing on the brick streets.

Cross & Lucas have completed putting in 298 feet of concrete walk about the Christian church.

J. W. Holmes and Jim Buck Thompson, of Cortland, and Owen Rogers, east of the city, began threshing this forenoon.

G. F. Harlow, W. H. Thomas and Clinton Bowers, viewers of the county line ditch north, today filed their report in the office of the engineer, E. W. Blish.

Willie Hollenbeck who has clerked at the Hotel Jonas at night has resigned and he will take his old position of oiler at the Blish Mill when they resume operation. Arthur Jerrell succeeds him.

RAILROAD RUMBLINGS.

J. R. Winchel, of the C. G. road, was here last evening.

J. R. Carey and Enos Humphrey, of the B. & O. S-W., was in the city last night.

J. M. Clark, late agent of the E. & R at this point, has been appointed bill clerk of the E. & T. H. at Princeton to which point his family and household goods left today. Mr. Clark made an impartial agent and was correct and popular with the people.

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Consumptives would never die if they could regain their usual weight. In fact there would be no consumption if there was no wasting of the system. The cause of this loss of flesh is a failure to properly digest the food eaten. Nine-tenths of all our diseases date back to some derangement of the stomach.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than good. The Cordial contains food already digested and is a digester of foods as well.

Every mother hates to make her children take Castor Oil. Laxol is sweet Castor Oil.

Wish We Had One.

A stove has been invented to cool rooms in summer. Salt, a small quantity of ice, and a patent chemical are used, and the stove becomes so cold that, if a hand be placed upon it, the skin will instantly blister. As salt is cheap, the chemical not dear and as the stove can make its own ice in the oven, the device is one that will be likely to come in general use in warm climates.

"Last summer one of our grand children was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by C. W. Milhouse.

DIED.

Anthony Ginley, of North Vernon died suddenly at his home Tuesday morning, July 7, 1897. He was the father of Mrs. Anthony McGinty, of Seymour, who with her husband and daughters went up there last evening to attend the funeral.

Reasons Why Chamberlain's Colic, Cholera and Diarrhoea Remedy is the Best.

1. Because it affords instant relief in case of pain in the stomach, colic and cholera morbus.
2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhoea.
3. Because it is the only remedy that will cure chronic diarrhoea.
4. Because it is the only remedy that will prevent bilious colic.
5. Because it is the only remedy that will cure epidemical dysentery.
6. Because it is the only remedy that can always be depended upon in cases of cholera infantum.
7. Because it is the most prompt and most reliable medicine in use for bowel complaints.
8. Because it produces no bad result.
9. Because it is pleasant and safe to take.
10. Because it has saved the lives of more people than any other medicine in the world.

INSANE FROM HEAT.

Traveling Salesman Suddenly Goes Mad and Tries to Commit Murder.
MEDINA, N. Y., July 8.—Charles S. Raymond, a traveling salesman in the employ of E. Gately & Co. of Rochester, became suddenly insane here. He was taken with sickness at his boarding-house and, becoming impressed with the notion that one of the waitresses had tried to poison him, attacked her.

Other boarders took a hand before he was able to do the girl any serious injury, and, after a struggle, succeeded in putting Raymond under restraint. Previous to his arrest Raymond rushed through the house proclaiming that he was Jesus Christ. His condition is due to the oppressive heat. Raymond came to Rochester from Cincinnati, where he engaged in the jewelry business some time ago.

MARION, Ind., July 8.—Judge Joseph L. Custer is critically ill from hemorrhages, caused by coughing. There is little hope of recovery.

THE BOER AT HOME.

He Does Not Hate All Englishmen, Only Some of Them.

Bryant Lindley met a Boer and asked the way. He received a surly answer which amounted to "Go to the devil!" Upon this he protested angrily, and the Boer rejoined in equal bad humor. At length the Boer shouted, "What's your name anyway?" and when he heard it his manner altered at once, and he exclaimed, "What, and are you the son of the great American missionary Daniel Lindley?" My friend gladly pleaded guilty to this charge, and the surly Boer became at once the most hospitable friend and begged forgiveness for his rudeness. As they rode together toward the road which my friend was seeking the Boer recounted with grateful satisfaction the many good deeds performed by the elder Lindley, but of them all the best to him was that represented by a sound thrashing he had once received at the hands of this venerable missionary. For it appeared that this particular Boer in his youth had been sent to a school taught by Lindley; that the Dutchman was noted for his size and strength and had bragged of his capacity to down the teacher, and had actually sought the opportunity by refusing obedience. But he soon learned that he had made a gross mistake, for this particular missionary was also a noted athlete and gave him such a hiding with a bullock whip that the young giant roared for mercy before the whole school. And for this and similar deeds the Boers loved the elder Lindley, and this particular Boer venerated his memory.

On the evening in question, when the two men were about to part, the Boer, who had been so uncivil at first, begged Lindley, with tears in his eyes, to grant him a great favor for the sake of his conscience. "Your father," said he, "did me a service so great that I can never repay it—he gave me the worst thrashing I ever had—he saved my character, and I am a better man today, thanks to him."

My friend cheerfully promised to grant the request, puzzling his head as to what was going to be required of him. The Boer was mounted upon an excellent horse, which he prized beyond anything he owned. He dismounted, put the reins in Lindley's hand and then ran away into the black forest as though the devil were after him. Here was no Indian giving. This Boer had put it out of the power of the American to discover the name or whereabouts of the strange giver.

It is a story typical of the Boer and serves to illustrate many apparent contradictions in his nature. He does not hate Englishmen in general. He hates only those who seem to threaten his peculiar quality of independence.—"The Dutch Feeling Toward England," by Pauline Bigelow, in Harper's Magazine.

The prettiest, most graceful and newest costume worn by youthful women with evening toilets shows the hair arranged in soft deep waves on the crown of the head and around the forehead, parted on the left side, carried to the back and coiled or braided around a bunch of short curls.—New York Post.

PASSED THE SENATE

Debate on the Tariff Is Closed at Last.

BILL HAS A DECISIVE MAJORITY.

President McKinley Submits His Special Message on Monetary Affairs to the Cabinet—Relief From Civil Service Laws—Senator Harris' Condition Precarious—Indiana Postmasters.

WASHINGTON, July 8.—By the decisive vote of 38 to 28 the tariff bill was passed in the senate shortly before 5 o'clock yesterday. The culmination of the long and arduous struggle had excited the keenest interest and the floor and galleries of the senate chamber were crowded by those anxious to witness the closing scene. Speaker Reed, Chairman Dingley and many of the members of the house of representatives were in the rear area, while every seat in the galleries save those reserved for foreign representatives, was occupied.

The main interest centered in the final vote and aside from this there was little of a dramatic character in the debate. The early part of the day was spent on amendments of comparatively minor importance, the debate branching into financial and anti-trust channels.

An analysis of the final vote shows that the affirmative was cast by 35 Republicans, 2 Silver Republicans (Jones of Nevada and Mandle) and 1 Democrat (McHenry); total, 38. The negative vote was cast by 25 Democrats, 2 Populists (Harris of Kansas and Turner) and 1 Silver Republican (Cannon); total, 28. Eight Republicans were paired for the bill and eight Democrats against it. The senators present and not voting were: Populists—Allen, Butler, Heitfeld, Kyle and Stewart; Silver Republicans—Teller and Pettigrew.

The tariff debate began on May 25, on which day Mr. Aldrich, in behalf of the finance committee, made the opening statement on the bill. The actual consideration of the bill began the next day, May 26, when schedule A, relating to chemicals, was taken up. The debate has been continuous since then, covering six weeks and one day. It has been notable in some respects, although it has lacked many of the dramatic and oratorical features marking past debates.

The bill as it goes back to the house re-enacts the anti-trust sections of the Wilson act, while the reciprocity and retaliatory provisions are substituted for those of the house. One of the most important new provisions added by the senate is that placing stamp tax on bonds, debentures and certificates of stock. Aside from these more important changes the bill as it goes back to the house has 54 amendments of various degrees of importance, which must be reconciled between the two branches of congress in conference.

READ TO THE CABINET.

President McKinley Submits His Monetary Message to His Advisers.

WASHINGTON, July 8.—President McKinley has framed his special message to congress on monetary reform, and submitted it to his cabinet late yesterday. He refers to the passage of the tariff bill by the house and the senate and hopes that it will soon be concurred in by both houses. With that acted upon, a subject of equal importance, he says, demands immediate attention, that of reform in our currency. The message quotes from the president's inaugural address, and cites the work and recommendations of the Indianapolis monetary conference. The message asks congress to authorize the commission, so that the president may be able to report to congress when it reassembles in the next regular session.

SULTAN ANGRY.

Peace Must Be Concluded Within a Week or War.

LONDON, July 8.—Graco-Turkish affairs appear to be re-entering an interesting stage. Yesterday the porte dispatched a circular to its representatives abroad containing a skillful defense of the Turkish case and declining to consider any frontier line in Thessaly north of the river Peneios, which it regards as the natural boundary.

It appears that the sultan has convinced himself that the powers will not resort to coercion and has decided to test the alleged concert of Europe to the utmost. On Monday he summoned a council of ministers for an extraordinary session to the Yildiz Kiosk with the result that, after a heated discussion, a report was drawn up in favor of resuming hostilities, if peace should not be concluded within a week.

The minister of war sent telegrams to Edhem Pasha announcing the decision. This accords with all the news received for the last 10 days. The Turks are rapidly strengthening their positions in Thessaly, massing troops at Dhonoko, fortifying Velesino and in other ways trenching themselves more firmly. The Thessalian harvest has already been reaped by the Turkish soldiers and large quantities of grain have been stored at Elassona.

According to a circumstantial report of a conversation between the sultan and an officer of his household, Abdul Hamid complained that the war had been forced upon him, and that, when he was victorious, Europe refused him either territory or indemnity. Therefore he intended to resist to the utmost.

CLOSING ON GOMEZ.

General In Great Danger of Being Surrounded by Spaniards.

HAVANA, July 8.—A telegram from Sancti Spiritus states that General Gomez is in danger of being surrounded by several strong Spanish columns operating in the vicinity of the San Jose estate, about 20 leagues from Sancti Spiritus.

Six Cuban bands under Rego, Camacho, Carrillo, Clavero, Perez and Banderas are reported to have learned of the commander-in-chief's peril, and have hurried to his assistance.

It is also reported that a Spanish battalion intercepted the band under Clavero at Porto Rillo and defeated it in a sharp engagement, during which the Cuban leader was slain.

News is momentarily expected of a decisive battle between Gomez and the Spanish forces now closing in on him. General Weyler when last heard from was at Sancti Spiritus.

SOCIALIST HYNDMAN.

Sensational Letter From His Pen In The London Justice.

LONDON, July 8.—Hyndman, the English socialist leader, has an article in the current issue of Justice, the socialist organ, on the subject of the Indian riots. It is full of accusations, is insulting to the queen and concludes as follows: "Now let us say plainly, as Englishmen who are utterly sick of the infamous wrong and robbery being done in our name, who would gladly see the villains tried and hanged, from Lord George Hamilton (secretary of state for India) upwards, who have created the famine and murdered natives by the millions, that if ever rebellion was justified in the history of the world it is justified in British India. No more intolerable tyranny ever crushed and ruined a suffering people."

GREAT MINER STRIKE

Indications So Far Are Said to Favor the Strikers.

DILLONVILLE MEN ARE OUT.

Trouble May Be Speedily Settled In Indiana—More Men Quit Work In Pennsylvania—Railroads Confronting Coal No Matter to Whom Consigned—Grape Creek (Ills.) Men at Work.

TERRE HAUTE, Ind., July 8.—Prospects appear favorable for a speedy and satisfactory settlement of the miners' strike in this district. President Knight and Secretary Kennedy have been meeting with the labor commissioners, as well as several operators who refused to meet with the miners last spring. It is said if satisfactory arrangements can be made with miners in other states those of Indiana will do their part.

President Knight has information that the Hazel Creek miners at Clinton went out yesterday. About 600 men are now idle at Clinton. The Grape Creek (Ills.) miners are still at work, as are the men at Shelby, Ind. There seems to be no disposition to use violence to get men to quit work, but the union officers have trusted agents working among the unorganized men, and expect to have nearly all out within a week.

PITTSBURG DISTRICT.

Both Sides Claim to Be Satisfied With Results So Far.

PITTSBURG, July 8.—Forty-eight hours after the inauguration of the great coal miners' strike a comparison of statements from both sides engaged in the contest show favorable results for the diggers. Discounting the miners' official announcements by the operators' opinions, there seems no question that the workmen have scored a decided advantage in this district, and it is believed that as the Pittsburgh district goes, so goes the country.

Conservative estimates place the number of miners now striking in this district from 16,000 to 18,000 men, an increase of about 5,000. This leaves but from 3,000 to 5,000 men still working.

Patrick Dolan, president of the Pittsburgh district miners, is confident that before the present week closes he will have succeeded in getting all of these men to join the ranks of the strikers, and when this result is effected, the battle will be practically won.

The operators are as confident of success as the miners, and yesterday issued a statement claiming a large accession of men in different parts of the district and a heavier shipping than usual. The operators admit that the miners have succeeded in getting more men out than they expected.

FORCED TO QUIT.

Miners With Pickhandles and Clubs Intimidate the Dillonville Men.

WHEELING, July 8.—Yesterday, armed with pickhandles and clubs, the striking Wheeling and Lake Erie miners at Long Run, over the river, proceeded to Dillonville, a short distance away on the same road, and forced the working miners at the latter place to come out on strike. The deputy United States marshals from Cincinnati had not yet arrived.

At Wheeling Creek, opposite here, in Ohio, the miners' union met yesterday and decided to go on strike in obedience to the request of the United Mine Workers' association.

Back of Bellaire, O., on the Baltimore and Ohio, two railway mines are working at the rate demanded by the miners—60 cents.

Situation at Massillon.

MASSILLON, O., July 8.—The independent miners in this district having endorsed the proposition to strike, the operators have about abandoned the idea of continuing to work the mines until the strike is settled. So far as the operators are concerned.

Their names are in the paper every day.

In the obituary column. The names of men killed by neglect of their health combined with overwork. They should serve as a warning to others who are fast food eaters.

Footsteps of a man can stand the strain of modern business competition who willfully neglects his health. It is not good policy to overwork, but the man who neglects his health can stand a great deal of it. The man who neglects his health is soon unfitted for work. When a man's digestion is disordered and his bowels are irregular, his blood becomes impure and the body is badly nourished. The victim of these conditions suffers from brain fatigue, nervous prostration, and debility, and eventually falls a victim to consumption.

Dr. Pierce's Golden Medical Discovery corrects the digestion, invigorates the liver, improves the appetite and regulates the bowels. It is the best blood-purifier, blood-maker, flesh-builder, and nerve tonic. It makes a man well, strong, clear-headed and fit for business. It enables him to stand a reasonable amount of overwork. All good druggists sell it. There's nothing "just as good."

Chas. Faulhaber, of Brownlee, Cherry Co., Neb., writes: "I have used Dr. Pierce's medicine, especially the 'Golden Medical Discovery' with much benefit. Some time ago I was troubled with great distress in my arms and hands. I got so bad I could not sleep at night. I thought I was going to die. I began taking the 'Golden Medical Discovery.' Soon I felt a decided improvement, the aching was all gone, and it has not returned. I have a copy of your 'Common Sense Medical Adviser' and would not do without it for any money."

Knowing how to take care of health is half the battle against illness. Dr. Pierce's great book, "Common Sense Medical Adviser" is the educator of the age. This book reached a sale of 68,000 copies at \$1.50 each. Within its 1,200 pages is compressed the best that Dr. Pierce has gathered by study and practice in thirty years. It is illustrated with over 300 drawings, some of them colored. Its 30 pages are addressed exclusively to women are worth the original price of the book. A new edition of the paper covers is now ready for free distribution. By sending 21 cents in one-cent stamps, to pay for mailing, you will receive the great book. Quick handling, send 21 cents extra. Address: World's Dispensary Medical Association, Buffalo, N. Y.

ators here are concerned they are not opposed to paying the miners better wages. They say if a 60-cent rate is secured in the Pittsburgh district they will pay their men 60 cents a ton. They will insist upon the 9 cents differential that has always prevailed. The Wheeling and Lake Erie railroad has begun to haul West Virginia coal into Ohio. Two train loads passed north but no trouble was experienced.

United States Marshals Protecting Miners.

COLUMBUS, O., July 8.—United States Marshal Deviney left Columbus last night for Wheeling with 25 deputies to be used in protecting the miners at the mines on the Wheeling and Lake Erie railroad. These mines are located at Dillonville, Laurelton and Long Run in Ohio and number between 1,500 and 1,600. They decided to return to work today if protection is furnished.

Will Confiscate Coal.

BUFFALO, July 8.—Buffalo has already received an intimation of the effect which the great miners' strike in the Pittsburgh coal region will have upon this city. The Lake Shore Railroad company has notified the local gas companies and shippers that it will confiscate all the coal coming over its lines in case it becomes necessary.

Railroads Seizing Coal.

CLEVELAND, O., July 8.—The railroads have already begun to seize coal for their own use, no matter to whom it is consigned. Whole trains are sent to railroad yards and unloaded, regardless of who the coal is destined for.

Railroad Property Burned.

CHICAGO, July 8.—Fire broke out this morning in the large transfer sheds of the Chicago and Alton Railroad company. The flames spread so rapidly that within 10 minutes after an alarm was given the entire structure was ablaze. The fire was extinguished after a short fight. Thirty freight cars loaded with valuable merchandise were destroyed. The loss is heavy.

OF INTEREST TO MERCHANTS.

One and a Third Rate Allowed Them by Western Passenger Association.

CHICAGO, July 8.—The roads of the Western Passenger association have decided to grant rates of one and one-third fare for merchants who desire to visit other cities for the purpose of purchasing goods. The rates will be made on the certificate plan and there must be at least 100 applications for the rate before it will be allowed to any town.

The Chicago merchants desired that the roads make the rates for them alone, but this the roads absolutely refused to do. Any place in the territory of the Western Passenger association, no matter of what size it may be, can have rates of one and one-third if its merchants will show that 100 tickets will be taken at the rate made by the roads.

MILLERS COMBINED.

Grand Jury Instructed to Investigate and Indict.

NASHVILLE, July 8.—Judge Anderson of the criminal court yesterday specially charged the grand jury to investigate the alleged formation of a millers' and wheat buyers' trust and to indict if the facts disclosed warranted, declaring that trusts and combines were infamous and against the law of the state. The millers deny that they have formed a trust or combine, but admit they have a purchasing agent who acts for all of them, but buys through grain merchants, who deal directly with the growers.

Robbed by a Tramp.

MINOOKA, Ills., July 8.—A tramp entered the farmhouse of J. Clemmon and, at the muzzle of a pistol, demanded money. Miss Anna Crist, who was in the house alone, was compelled to sit quietly by and see the man ransack the house. She finally managed to escape and gave an alarm. A body of men quickly gathered and searched the neighborhood, but the intruder made his escape.

Knocked Off a Moving Train.

MINNEOTA, Ills., July 8.—Two men while attempting to board a freight train here were knocked off at the coal chutes. One, who carried papers bearing the name of August Peterson, which showed that he had recently been discharged from the federal service at Fort Sheridan, was killed, and Fred Strayhorn, who seems to have come from Tula, Ills., was terribly cut up and will probably die.

Accident to an Artist.

MINNESOTA STORMS.

Damages Will Amount to Over \$1,000,000—Details Hard to Get.

DELUTH, July 8.—Fourteen people are now known to have been killed in this section of Minnesota. The storm was general and it is impossible to estimate the amount of damage with any degree of certainty.

The cyclone, which was central near Glenwood, was the worst that ever struck the state. The telegraph lines are down for 75 miles each side of there and particulars are hard to get.

Railroad traffic is paralyzed because of the heavy fall of rain. The rain came so suddenly and so fiercely in some places that many trains ran into washouts before they had any intimation of danger.

Crops have been damaged to a great extent, and a large amount of live stock was killed. Reports of washouts, floods and cyclones are being received almost hourly. Every railroad in the state has had some damage to tracks and rolling stock.

The storm was so general it is hard to even approximate the loss, but considering crops and other damage it will probably exceed \$1,000,000.

MONONGAHELA RIVER.

The Stream Now Open to the Commerce of the Nation.

PITTSBURG, July 8.—The formal transfer of the property of the Monongahela Navigation company to the United States government has been made and the Monongahela river is now free to the commerce of the nation.

The transfer was made to Assistant Secretary of War McKeljohn, who delivered the warrant drawn on the United States treasurer for the amount of the award (\$3,601,015.56) to President Dannel of the Navigation company.

The freeing of the river means a saving of \$25,000 annually to the coal operators.

The transfer releases nearly 10,000,000 bushels of coal which has been held in the pools by the operators to save lockage tolls. This coal will be brought down to Pittsburgh today.

Physical and Mental Exhaustion Gives Way to Vigorous Activity.

R. W. T. HOUCK, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1896: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so wearied me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nervine and Restorative Tonic have done me untold good. Every purchaser knows there are different grades in all merchandise and when you buy of a home merchant you have his guarantee as to quality, which can be relied upon. As we have said before, spend your money at home and you then have a chance to get it back when it is put in circulation.

WOMEN AND JEWELS.

The Combination Is as Old as Time and Not a New Fad.

The critic who finds much to blame in modern women in the number of jewels they wear on both this and the other side of the Atlantic will find that history had set the fashion long before the fair creatures of today had opened their lovely eyes. According to Pliny, Lollia Paulina, the wife of Caligula, wore on her hands, arms, neck, head and waist pearls and diamonds to the value of \$1,680,000. Faustina had a ring worth \$300,000, Domitia possessed one worth \$300,000, and Ctesonia had a bracelet worth \$400,000. Seneca cried out that one pearl worth no longer dear for a lady, but she must insist on at least three for each shell-like ear. The weight of these, it is hard to believe, could ever be endured by even the vainest of fair maids and matrons.

There were women in ancient Rome whose sole occupation was healing the torn ears of ladies whose ornaments had proved too heavy for the pretty lobes. Poppaea's earrings were worth \$750,000, and Calpurnia, the wife of the mighty Julius Caesar, had a pair valued at twice that sum. Later on the extravagance had not seemed to have died out. Marie de Medici had a dress prepared for the baptism of her children, and when she attempted to wear the marvelous creation she found that it was so heavy that she could not stand in it. It was trimmed with 32,000 pearls and 3,000 diamonds.

Men, however, excelled in costly apparel in the middle ages, and Philip the Good of Burgundy frequently wore jewels valued at \$200,000. When he walked alone the streets, people climbed over each other to get a peep at him. The Duke of Buckingham once wore at the court of St. James a costume costing \$400,000. The dress of the nobles of the middle ages was literally covered with gold and precious stones.—Chicago News.

A Good Sally Lunn.

A good Sally Lunn, made according to the original Sarah Lunn's recipe, without yeast, is this: Mix 3 cups of flour, 3 tablespoonsful sugar, 3 tablespoonsful melted butter, a cup of milk, 3 teaspoonfuls baking powder and 3 eggs together and bake in a loaf. If a "raised" bread is desired, nothing is better than this often tested recipe. Add 2 tablespoonsful melted butter to a large pint of warmed milk, then 2 well beaten eggs and half a yeast cake dissolved in 3 tablespoonsful cold water. Pour gradually over a quart of flour and beat to a smooth batter. Add a teaspoonful salt and a teaspoonful of sugar. Set to rise for 2 hours in a warm place and bake. To those who like the hop taste a whole yeast cake may be used with these proportions and will, of course, accelerate considerably the rising process.—New York Post.

Lady Dufferin, in her amusing book, "Viceregal Life in India," gives some good examples of "bahoo" English. One of the natives was told to write an essay on the horse in an examination, and this was the result: "The horse is a very noble animal, but when irritated ceases to do so."

The nest and eggs of Pallas' gray shrike (Lanius major) are said to be still unknown to science.

Lively Runaway.

A few minutes past three o'clock this afternoon a horse ran away with a buggy in which George Attkisson and another young man were riding. They jumped out on West Second street. The horse went around north and came down Chestnut leaving the buggy against a tree near Dr. Shields' residence and then going east on Third street. The buggy was considerably damaged.

Citizens' Meeting

A meeting of citizens was held at Armory hall last night under the auspices of the commercial club. The court house situation was discussed. The general opinion was that since the call for a special election on Aug. 3 is clearly illegal and without authority from the court, Seymour citizens and removalists generally should refrain from voting on that day.

Tuesday night at 8 o'clock was appointed as a regular citizens' meeting night during the court house campaign.

Seymour Manufactures in New Mexico.

Ex-Congressman George W. Cooper, of Columbus, is spending some time in the west to regain his health. He finds that Indiana towns, Seymour among them, are supplying many of the necessities of life to the people of the western states. In a letter to the Columbus Herald he says:

"They draw their supplies from the east and from California. I saw cereal line with Columbus labels on the boxes in El Paso. I do not know whether it was old goods or old labels. I saw Shelbyville furniture at Albuquerque, and I saw, most wonderful of all, pants made in Seymour, Ind., on sale at several places. It is an old saying 'go away from home to hear the news.' I believe it is not generally known in Columbus that Seymour had achieved this distinction. Here she is modestly reaching out more than a thousand miles with her wares, and supplying her brethren of the plains with an article which might be ranked as a prime necessity of life."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. RAILROAD RUMBLINGS.

J. R. Winchel, of the C. G. road, was here last evening.

J. R. Carey and Enos Humphrey, of the B. & O. S-W., was in the city last night.

J. M. Clark, late agent of the E. & R. at this point, has been appointed bill clerk of the E. & T. H. at Princeton to which point his family and household goods left today. Mr. Clark made an impartial agent and was correct and popular with the people.

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Consumptives would never die if they could regain their usual weight. In fact there would be no consumption if there was no wasting of the system. The cause of this loss of flesh is a failure to properly digest the food eaten. Nine-tenths of all our diseases date back to some derangement of the stomach.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than good. The Cordial contains food already digested and is a digester of foods as well.

Every mother hates to make her children take Castor Oil. Laxol is sweet Castor Oil.

Wish We Had One.

A stove has been invented to cool rooms in summer. Salt, a small quantity of ice, and a patent chemical are used, and the stove becomes so cold that, if a hand be placed upon it, the skin will instantly blister. As salt is cheap, the chemical not dear and as the stove can make its own ice in the oven, the device is one that will be likely to come in general use in warm climates.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

THE BOER AT HOME.

He Does Not Hate All Englishmen, Only Some of Them.

Bryant Lindley met a Boer and asked the way. He received a surly answer which amounted to "Go to the devil!" Upon this he protested angrily, and the Boer rejoined in equal bad humor. At length the Boer shouted, "What's your name anyway?" and when he heard it his manner altered at once, and he exclaimed, "What, and you are the son of the great American missionary Daniel Lindley?" My friend gladly pleaded guilty to this charge, and the surly Boer became at once the most hospitable friend and begged forgiveness for his rudeness. As they rode together toward the road which my friend was seeking the Boer recounted with grateful satisfaction the many good deeds performed by the elder Lindley, and of them all the best to him was that represented by a sound thrashing he had once received at the hands of this venerable missionary. For it appeared that this particular Boer in his youth had been sent to a school taught by Lindley; that the Dutchman was noted for his size and strength and had bragged of his capacity to down the teacher, and had actually sought the opportunity by refusing obedience. But he soon learned that he had made a gross mistake, for this particular missionary was also a noted athlete and gave him such a hiding with a bullock whip that the young giant roared for mercy before the whole school. And for this and similar deeds the Boers loved the elder Lindley, and this particular Boer venerated his memory.

On the evening in question, when the two men were about to part, the Boer, who had been so uncivil at first, begged Lindley, with tears in his eyes, to grant him a great favor for the sake of his conscience. "Your father," said he, "did me a service so great that I can never repay it—he gave me the worst thrashing I ever had—he saved my character, and I am a better man today, thanks to him."

My friend cheerfully promised to grant the request, puzzling his head as to what was going to be required of him. The Boer was mounted upon an excellent horse, which he prized beyond anything he owned. He dismounted, put the reins in Lindley's hand and then ran away into the black forest as though the devil were after him. Here was no Indian giving. This Boer had put it out of the power of the American to discover the name or whereabouts of the strange giver.

It is a story typical of the Boer and serves to illustrate many apparent contradictions in his nature. He does not hate Englishmen in general. He hates only those who seem to threaten his peculiar quality of independence.—"The Dutch Feeling Toward England," by Poulney Bigelow, in Harper's Magazine.

INSANE FROM HEAT.

Traveling Salesman Suddenly Goes Mad and Tries to Commit Murder.

MEDINA, N. Y., July 8.—Charles S. Raymond, a traveling salesman in the employ of E. Gately & Co. of Rochester, became suddenly insane here. He was taken with sickness at his boarding-house and, becoming impressed with the notion that one of the waitresses had tried to poison him, attacked her.

Other boarders took a hand before he was able to do the girl any serious injury, and, after a struggle, succeeded in putting Raymond under restraint.

Previous to his arrest Raymond rushed through the house proclaiming that he was Jesus Christ. His condition is due to the oppressive heat. Raymond came to Rochester from Cincinnati, where he was engaged in the jewelry business some time ago.
